

There's a Difference in Washing Machines

You don't want a Washing Machine that takes longer to do the washing than it should, or one that does not do the washing well.

You want a sweet running, quick thorough washing machine.

That's the kind we handle—washers that work easily, that work quickly, that wash more clothes and wash more thoroughly.

Don't work an hour or two more in warm weather and then turn out and inferior, cleansed garment. Get a machine from us now. We can save you money and give you a first class machine, one which will last for years.

We have both the Electric and Hand Power Machines.

HORSE PROFITS

Most farm animals sell at so much a pound. But what you get for your horses or mules depends upon the Health, Vigor, Strength and Endurance of the animals—regardless of weight, size or breed. These qualities in your horses and mules determine their value and your profit.

DESTROYED BY WORMS

Veterinary authorities agree that the worms in farm animals retard digestion, lessen vitality, and cause various destructive diseases. Worms steal much of the food you feed to nourish the horse; they suck the blood—cause constipation, and weaken the animals so that they are unable to resist contagious disease which may be prevalent. Worms keep your horses thin, sluggish, rough.

This is the most popular horse medicine in the world. It destroys all stomach worms (except bots) and all free intestinal worms. Horses free from these parasites look better, feel better, act better, are better. Simply place SALVET before them; they'll doctor themselves. The appetite and digestion will improve and the relieved animals show more life, snap and endurance. They shed earlier, and the coat shows the smooth, silky gloss of top condition.
